

## Children's Membership

Our scheme covers your children up to 16 years of age for their recommended routine six monthly examinations, as well as any preventive treatments like hygienist appointments, and any fissure sealants and fluoride treatments they may require.

Reducing the likelihood of dental decay and the need for treatment in the first 16 years gives them a real chance of avoiding dental treatment for a lifetime

It's vital that children's teeth are looked after from the start and this membership plan is designed to ensure that your children's teeth are properly cared for in their formative years.

Appointment times are reserved for children's visits after school every day between 3pm and 5pm. and other family members are welcome to attend at the same time. Other times are available for children to be seen if families find it difficult to attend at the usual after school hours.
